There is not one way of showing the art of belonging, but many ways, there is diversity. You can read about them in many ego documents where disabled write about their lives. The ways of belonging differ not only because there are different diseases and handicaps, they vary in many context, with kind of people, networks, families, support etc.
Examples with work: Unlimittted, Joost Cares, Crohnjuwelry, Restaurant Freud, Park keeping working on a farm and other daytime activities.

What helps?
-Conditions in Society, Environment, Family, etc...
-Abilities, Flexibility, Creativity, Knowing limitations, Humor, Coping Strategies etc...
-Knowledge of living with, thinking about a good life.
-Technology, Stories, Experiences, Disability studies
-Examples (Best and worst), etc...

The old message: for, with, not without in different ways.
